- ISO 9001:2015 certificate was renewed.
- One day workshop on "Computer Basic Skills" on 23/03/2022 was organized.

Points discussed in meetings are as follows:

- Work load distribution for upcoming semester.
- Orientation program for newly admitted students with introduction to programme and course objectives.
- To increase Paper publications in Scopus/UGC indexed journals.
- Research, conference, STTP and workshop proposal submission.
- Publications and grant of patents.
- MOU with different skill development organizations.
- To increase the outreach activities.
- Suggestion for affiliating body i.e. PCI for upgradation of syllabus as per industrial need.
- Initiation of NAAC accreditation process.
- Compliance to PCI for Seat restoration for M. Pharm (Pharmacology).
- Completion and inauguration of auditorium.
- Organization of Annual prize distribution function.
- CPCSEA Approval for Animal Breeding Center.
- HPTU Affiliation process.
- Upgradation of faculty data on PCI portal.
- Uploading of NIRF data on portal.
- Add on Certificate courses for students.
- Industrial visit/training and educational tour for students.
- Completion of course files for odd semester.
- Action Taken Report (2021-22) on the basis of feedback of different stake holders is below:

Venue: Conference Hall, Laureate Institute of Pharmacy-HP

Time: 12.30-1.30PM

Prof (Dr.) Mahendra Singh Ashawat, Director Cum Principal, LIPh and Convener, IIC welcomed the speaker Prof. (Dr.) Amar Deep Ankalgi, Professor and Head, Pharmaceutical Analysis and Quality Assurance Cum Pharmaceutical Chemistry, Laureate Institute of Pharmacy, NISP co-ordinator & Innovation Ambassador, by presenting the bouquet.

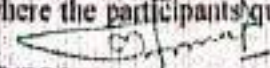

Dr. Amar Deep addressed the audience and highlighted the approach of designing new molecules by rational concept. He mentioned the innovative ideas can be exploited to develop new pharmaceutically active moiety by using the virtual screening techniques. He discussed the overall scheme of innovation from target innovation, virtual screening, synthesis, in vitro and in vivo techniques, clinical trial to upto the product reaches the market.

He mentioned the chemistry aspect like drug likeness with respect to Pfizer rule. Furthermore, he discussed the aspect of virtual screening through target based and ligand based design with suitable examples.

In his talk, he highlighted the selectivity, promiscuity and certain QSAR parameters and descriptor.

There was an interactive round where the participants' queries were effectively answered by Dr. Amar Deep.

Drug Discovery Process

In vivo literally means that which takes place outside an organism. In science, *in vivo* refers to experimentation or measurements done in or on *in-vivo* from an organism in an external environment with minimal alteration of natural conditions.

Ex vivo is the study of an organ or tissue (functionally isolated from an intact organism while *in vitro* is the study of a cell (or part of a cell) isolated from an intact organism in order to simplify the studies.

REPORT

on

National Science Day (Global Science for Global Well Being)

A guest lecture was organized on the eve of celebration of 'National Science Day, Theme: Global Science for global well being' in the conference hall of Laureate Institute of Pharmacy on 28/02/2023. The Guest Speaker was Mr. Aman Kumar, ASI, Technical and IT Assistant, SSB, SAPRI, H.P. The lecture started with the lamp lighting ceremony by dignitaries. Prof (Dr) Mahendra Singh Ashawat, Director cum Principal, Laureate Institute of Pharmacy welcomed our guest speaker and participants. Mr. Aman Kumar highlighted the importance of cyber security and how to be prevent and make ourselves secure from cyber fraud or crime. Prof (Dr) Mahendra Singh Ashawat, Director cum Principal and Prof (Dr.) C. P. S Verma presented the certificate and Memento to Guest Speaker. Prof (Dr.) C. P. S Verma presented the vote of thanks to conclude the session.

Report on the Celebration of World Environment Day

Date: 05/06/2023

Every year on June 5th, the world observes World Environment Day in an effort to increase public awareness of the need to conserve the environment and the planet. Everybody on the earth is reminded to participate in eco-friendly activities on this day. People gather to make commitments for a greener earth. On June 5, 2023 ECO CLUB of Laureate Institute of Pharmacy celebrated World Environment Day on the theme of Solutions to Plastic Pollution. Laureate Institute of Pharmacy strives to model eco-friendly practices, students can become powerful proponents of environment preservation. Eco-Clubs programs on campus that specifically focus on green initiative are an ideal way to guide learners on a meaningful route towards environment protection. The welcome of all the participants were addressed by the Dr. Pravin Kumar and the theme was explain by him Solutions to Plastic pollution. Instead that other staff members were present in this celebration. After that a brief lecture was delivered by Dr. CPS Verma Dean Student Welfare Laureate Institute of Pharmacy, after that plantation drive was started and at last cleaning of campus process started the vote of thanks was delivered by Dr. Pravin Kumar. At last, the program was successfully come to end at 04:00 PM.

Innovation Ambassador's Session for Internal Students On "Technology Transfer"

Name of Resource Person: Mr. Dev Raj

Designation: Assistant Professor, Dept. of Pharmaceutics (Innovation Ambassador, IIC)

Name of Institute: Laureate Institute of Pharmacy, VPO Kathog, HP-176031

Date of Program: 28 Sep 2022

Venue: Conference Hall, Laureate Institute of Pharmacy-HP

Time: 3:30 to 4:00 PM

Prof (Dr.) Mahendra Singh Ashawat, Director Cum Principal, LIPh, and Convener, IIC welcome the speaker Mr. Dev Raj, Assistant Professor, Pharmaceutics (Innovation Ambassador), Laureate Institute of Pharmacy by presenting the bouquet.

Mr. Dev Raj addressed the audience and highlighted the basics and importance Technology Transfer. He motivated the students to get their innovative ideas commercialized by process of technology transfer.

There was an interactive round where the participant's queries were effectively answered by Speaker.

Dr. Pravin Kumar, HOD, Department of Pharmaceutics mentioned that 39 participants attended the event and most of the students were from postgraduate, M. Pharmacy courses in Pharmaceutics, and B. Pharmacy students.

Dr. Amar Deep Ankalgi, HOD, Pharmaceutical Analysis, and Quality Assurance, presented the memento to Mr. Dev Raj, Innovation Ambassador, IIC committee member. Dr. Pravin Kumar, Associate Professor and Head, Department of Pharmaceutics delivered the vote of thanks.

Dated Dharamshala the 26th March 2023

Subject. Multisectoral Mainstreaming Convergence Workshop for End TB under
chairmanship of Hon'ble Governor, HP on 27th March 2.45 PM at DC Office
Room No 823, Kangra at Dharamshala

Sir/Madam,

I am to convey that India stands committed to the Top Public Health Priority- End TB by 2025. Apart from medical services for free diagnosis and treatment, the response envisages building partnerships with departments for stigma reduction, building capacities of institutions that impact population vulnerable to TB, and making social protection schemes more accessible to TB patients & families. PM TB Mukh Bharat Abhiyan is flagship initiative with many joining as Nikshay Mitras to provide psychosocial and nutrition support to consented TB patients. Various MOUs have been signed by line departments for mainstreaming at State level in this regard with National Health Mission under chairmanship of the Hon'ble Governor, HP.

District administration has taken a lead in stewardship with various innovations, and line department heads have been sensitized on the roles in the Zila Kshay Rog Samiti Meeting which was held on 24th March.

Multisectoral Mainstreaming Convergence Workshop under chairmanship of Hon'ble Governor, HP is scheduled to be held on 27th March 2.45 PM at Room No 823 DC Office Complex. The theme of World TB Day 2023 Campaign - 'Yes! We can end TB!' - conveys a message of hope that getting back-on-track to turn the tide against the TB epidemic is possible through innovations, accelerated action and multisectoral collaboration.

You are requested to make it convenient to attend the meeting. Queries/ confirmations be sent to dtohpkggr@ntcp.org

RED RIBBON CLUB Activities for the Session 2022-23

On 24-26th March a Two days' workshop for End TB under the chairmanship of hon'ble ~~Commissioner~~ of Himachal Pradesh Sh. Shiv Pratap Shukla & Deputy commissioner Kangra Dr. Nipun Jindal on World Tuberculosis Day. On this program Dr. Nipun Jindal said "India stands committed to the Top Public Health Priority- End TB by 2025. Apart from medical services for free diagnosis and treatment, the response envisages building partnerships with departments for stigma reduction, building capacities of institutions that impact population vulnerable to TB, and making social protection schemes more accessible to TB patients & families. PM TB Mukh Bharat Abhiyan is flagship initiative with many joining as Nikshay Mitras to provide psychosocial and nutrition support to consented TB patients". TB awareness chariot was flagged off on Friday under a 3-day special campaign to make people aware about TB. He flagged off the awareness chariot from the Deputy Commissioner's office premises. During this CMO Dr. Sushil Sharma, Dr. Rajesh Sood District Tuberculosis Officer, Dr. M.S. Ashawat Principal cum Director of Laureate Institute of Pharmacy Jawalamukhi, Laureate Institute Red Ribbon Club Chairman Dr. CPS Verma, Laureate Institute Red Ribbon Club Nodal Officer Mr. Tarun Sharma & other dignitaries were present. Through this awareness chariot operated in collaboration with the District Health Department and Laureate Institute of Pharmacy Jawalamukhi, people will be made aware of TB in the district for the next 3 days and they will be given detailed information about the symptoms, treatment and prevention of the disease. The Deputy Commissioner said that this will go a long way in making people aware and in the prevention of TB.

Wellness club Activities for the session 2022-2023

On 21st June, Institutional Wellness club organized Yoga Day at institute main-ground. Prof (Dr.) Mahendra Singh Ashawat, Director Cum Principal, Laureate Institute of Pharmacy welcomed Satpal Kapoor, Patanjali Yoga Instructor by presenting the bouquet. Mr. Kapoor taught various pranayamas, yoga asanas (yoga poses) and meditation to the participants. Faculty members, undergraduate and post graduate students learned the basic skills of Yoga and meditation. Mr. Kapoor explained the importance of different Asanas and meditation practices to lead healthy life. He also encouraged the young students and participants to adopt the learning's and disseminate the practices to others so that large societal benefit can be achieved. Dean student welfare officer C.P.S Verma, Wellness club Incharge Mr. Nikhil Sharma, Member of club Mr. Manish Kumar programme was followed by distributing the fruits to the participants. Whole team of club in the presence of Director cum Principal presented the momento to the yoga Guru, Satpal Kapoor.

REPORT ON YOGA AND HEALTH MANAGEMENT

On 30th January, Institutional Wellness club organized One day seminar on Yoga at Institute main Conference hall. Prof. (Dr.) Mahendra Singh Ashawat Director Cum Principal Laureate Institute of Pharmacy Welcomed Dr. Ram Avatar Advisor of Carrier Point University. Dr. Ram Avatar taught various yoga asanas and meditation to the participant. He told yoga is a symbol of generating balance and peace, and everyone should include it into their daily lives. The core of yoga is balance, not simply within the body or between the mind and the body. Practicing Yoga is known to improve flexibility, balance, endurance and physical strength while Meditation helps to keep the mind sharp and clear relieves stress and improves overall wellbeing. Faculty members, Undergraduate and Post graduate students learned the basic skills of yoga and meditation. He also boosts the young students to adopt the learning and expand the practices to others. Prof. (Dr.) Mahendra Singh Ashawat and Dean Student Welfare Dr. C.P.S. Verma presented the momento for the yoga seminar

Event Report: World Intellectual Property Day Celebration

Date: April 26, 2023

Time: 10:30 am to 12:30 pm

Venue: Google meet (Online)

The World Intellectual Property Day celebration on the theme "IP: Accelerating Innovation and Creativity" was organized by the IIC (Industry Innovation Cell) and the Industry Institutional Cell at Laureate Institute of Pharmacy, Kathog. The event aimed to create awareness about intellectual property rights (IPR) and patents and their role in promoting innovation and creativity. It provided an opportunity for students to learn from experts in the field and engage in discussions regarding intellectual property.

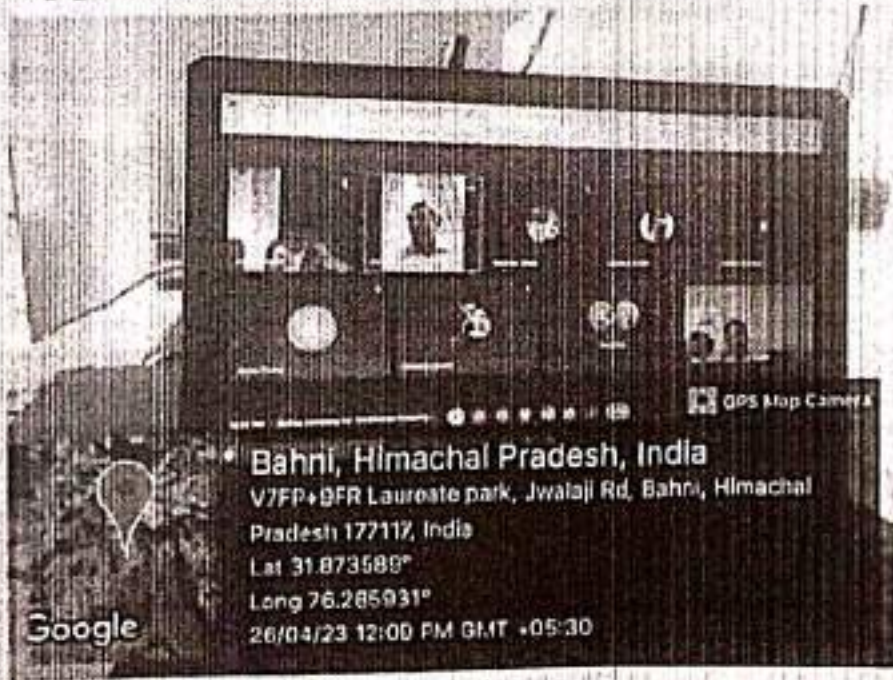

Figure: Online Seminar on IPR

The event commenced at 10:30 am with an enthusiastic participation of around 200 students, who joined the virtual gathering on the Google Meet Ms. Neha Goyal, a Registered Patent & Design Attorney from Delhi, and Ms. Payal Chohan, a senior scientific Technical Assistant

Prof. Dr. MS Ashawat, the Director cum Principal of Laureate Institute, extended a warm welcome to the distinguished guests and participants. His opening remarks set the tone for the event, emphasizing the significance of intellectual property rights in today's fast-paced world and the impact they have on driving innovation and creativity in various industries.

Figure: Students attending the session

The moderators engaged the audience in thought-provoking discussions, shedding light on the importance of protecting intellectual property and the benefits it offers to inventors, researchers, and entrepreneurs. They shared real-life examples and case studies to illustrate the practical applications of intellectual property rights and patents.

The event concluded with a vote of thanks delivered by Prof. CPS Verma. Prof. Verma expressed his gratitude to the moderators, Ms. Neha Goyal and Ms. Payal Chohan, for their informative presentations and engaging discussions. He also thanked the coordinators, Dr. Shammy Jindal and Dr. Sanjay Kumar, for their dedicated efforts in organizing the event and ensuring its success. Prof. Verma expressed appreciation to Prof. Dr. MS Ashawat for his warm welcome and support throughout the event.

The World Intellectual Property Day celebration at Laureate Institute of Pharmacy provided an excellent platform for students to gain insights into intellectual property rights and patents. It enhanced their understanding of the importance of protecting intellectual creations and encouraged them to explore new avenues for innovation and creativity. The event served as a significant milestone in promoting intellectual property awareness among the students and further establishing Laureate Institute as a hub for intellectual growth and knowledge dissemination.

Report of Academic Audit

Under the supervision of Director cum Principal, the academic audit for departments was carried out by respective HOD'S in association with Examination department. The following points were observed for future course of action:

- Student Monitory Record has to be standardized and maintained in the same format by all department and individual faculty.
- Faculty should use statistical tools based analysis in their respective subject that must be uniform.
- Questions paper must be set according to bloom taxonomy and should be in uniform pattern prescribed by examination section as per PCI norms.
- Objective and Subjective Questions based evaluation must be carried out to evaluate critical thinking and intelligent quotient (IQ) of the students.
- During the audit, evaluation of answer scripts were found to be unsatisfactory, concerned HODs were informed to take necessary action to enhance the fair evaluation of answer sheets such as markings pattern and uniformity of markings among students.
- Each question must be checked and marked properly.
- English Language Tutorial classes must be conducted so that slow learner students can get acquainted with writing skills.

First Sessional Theory Examination, Oct-2022
7th Sem (Section A)

Subject: Novel Drug Delivery Systems
Total marks: 30
Date: 20/10/2022

Paper code: BP-704T
Time: 1.30 hrs

SECTION A: Long answer questions (Attempt any ONE question)

1. What are the important advantages and limitations of controlled release drug delivery systems (10 Marks)
2. Discuss the principle of co-cervation phase separation technique of microencapsulation? (10 Marks)

SECTION B: Short answer questions (Attempt any TWO questions)

3. Write a note on ion exchange drug delivery systems? (5 Marks)
4. Briefly discuss about diffusion and dissolution controlled release drug delivery systems? (5 Marks)
5. Write a note on osmotic pump with a neat labeled diagram? (5 Marks)

SECTION C (All questions are COMPULSARY)

6. How molecular weight of drug can affect the design of CRDDS? (2 Marks)
7. What is the significance of rate of metabolism of drug in designing of CRDDS? (2 Marks)
8. What is temporal delivery of drug? (2 Marks)
9. Write two important advantages of microencapsulation technique? (2 Marks)
10. Write the two important stages of mucoadhesion? (2 Marks)

प्रतियोगिता | Laureate फार्मसी संस्थान में जिला स्तरीय डेक्लामेशन प्रतियोगिता का आयोजन

कक्षागत स्थित #Laureate_ Institute of Pharmacy की राष्ट्रीय सेवा योजना और इंस्टीट्यूशनल इनीवेशन कोमिंग के अंतर्गत में जिला स्तरीय डेक्लामेशन प्रतियोगिता का आयोजन किया गया।

जिसमें काँगड़ा जिला के लगभग 15 स्कूलों ने भाग लिया। संस्थान के निदेशक एवं प्रधानाचार्य प्रोफेसर (डी.) एम एस आशागत ने छात्रों को अपने विचारों से स्वामी विवेकानंद और युवा दिवस के बारे में बताया। स्वामी विवेकानंद के जन्मदिन को युवाओं के लिए समर्पित करने की शुरुआत 1984 में ही गई थी। उन दिनों भारत सरकार ने कहा था कि स्वामी विवेकानंद का दर्शन, आदर्श और काम करने का तरीका भारतीय युवाओं के लिए प्रेरणा का एक बड़ा स्रोत हो सकते हैं। तब से स्वामी विवेकानंद की जयंती को राष्ट्रीय युवा दिवस के तौर पर मनाने की घोषणा कर दी गई।

कार्यक्रम के अंत में सभी विजेताओं को पुरस्कार से नवाजा गया।

Then Respected Director cum Principal Dr. M. S. Ashawat sir gave everyone a warm welcome for joining this initiative and introduced the attendees with the motive of this program (Awareness against Electronic Waste). After that brief introduction, the NSS Unit started the Rally with a few more slogans. They rose slogans all the way from the Institution to the Jwalaji market. The attendees went from the institution, first to the Municipal Corporation Jwalaji.

There we met with Execution Officer, Hitesh Kumar and he firstly thanked the Institution for the taking this initiative. Then he told everyone about "What E-Waste is?" and also briefly explained how electronic waste is managed in Jawalaji market. After that a Token of Appreciation was presented to the institute by the EO.

Report on International Day against Drug Abuse

Date: 26th June 2023

Venue: Laureate Institute of Pharmacy, Kathog and Kathog Village

Organized by: NSS Unit of Laureate Institute of Pharmacy

Collaboration with: Department of Social Justice and Empowerment,
Jawalamukhi

Introduction:

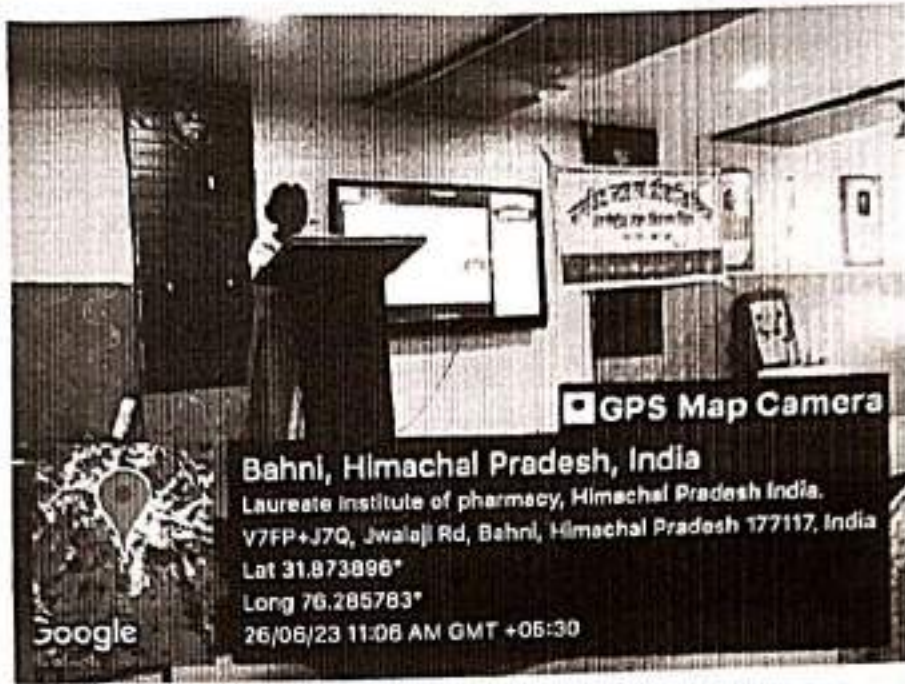

The NSS Unit of Laureate Institute of Pharmacy, in collaboration with the Department of Social Justice and Empowerment, Jawalamukhi,

organized a comprehensive event to observe the International Day against Drug Abuse. The event aimed to

raise awareness about the detrimental effects of drug abuse and promote a drug-free society. The occasion witnessed active participation from both the academic and government sectors.

DIRECTOR
LAUREATE INSTITUTE OF
PHARMACY KATHOG
TEH. JAWALAMUKHI
DISTT. KANGRA (H.P.)

Seminar by District Welfare Officer:

The day commenced with an insightful seminar delivered by a district welfare officer of Social Justice and Empowerment, Jawalamukhi. The representative provided valuable information about the current scenario of drug abuse, its impact on individuals and society, and the role of government initiatives in combating this issue. The seminar emphasized the need for collaborative efforts to address the multifaceted challenges posed by drug abuse.

Awareness Rally in Kathog Village:

Following the seminar, NSS volunteers took the initiative to organize an awareness rally in Kathog village. The rally aimed to disseminate

information about the harmful consequences of drug abuse and encourage the community to actively participate in creating a drug-free environment. The enthusiastic NSS volunteers, armed with banners and placards, marched through the village, engaging with residents and spreading the message of the International Day Against Drug Abuse.

DISTT. KANGRA (H.P.)

Participation and Impact:

Approximately 150 participants, including students, faculty members, and local residents, actively took part in the event. The engagement of the community in the rally was particularly noteworthy, with individuals expressing their commitment to eradicating drug abuse from their surroundings.

Conclusion:

The International Day Against Drug Abuse celebration organized by the NSS Unit of Laureate Institute of Pharmacy, in collaboration with the Department of Social Justice and Empowerment, Jawalamukhi, was a resounding success. The combination of an informative seminar and an impactful awareness rally effectively

DIRECTOR

TEH. JAWALAMUKHI
DIST. KANGRA (H.P.)

conveyed the message of the harmful effects of drug abuse. The event not only educated the participants but also inspired a sense of responsibility within the community to collectively combat the menace of drug abuse.

The NSS unit remains dedicated to promoting social awareness and contributing to the betterment of society through such impactful initiatives.

(57) Abstract :

ABSTRACT IN VIVO BALLOON METHOD FOR MEASURING UTERINE CONTRACTIONS OF THE UTERUS IN WISTAR RATS The present invention discloses a method (100) for monitoring uterine contractions. The method (100) involves weighing and priming adult female rats with estradiol benzoate, followed by selecting rats in an oestrous phase. The method (100) further includes anesthetizing the rats, followed by inserting a saline-filled catheter with a small latex balloon into a lumen of the uterine of the rats and connecting the catheter to a pressure transducer and recording normal uterine contractions. Finally, the method (100) involves recording dose-dependent response of Oxytocin and AL. Figure 1

(57) Abstract :

The invention discloses piperine loaded lipid nanocarrier for management of atopic dermatitis and method of preparation. The piperine loaded lipid nanocarrier comprises of piperine; phosphatidylcholine; ethanol; an oil base comprising of cetyl alcohol, stearic acid, tween 80 and span 20; and an aqueous base comprising of propylene glycol, glycerine, methylparaben, propylparaben and distilled water. The piperine loaded lipid nanocarrier has high entrapment efficiency. The results of the drug release studies show that the drug release from the piperine loaded lipid nanocarrier was sustained for 24 hours. The results showed that the piperine loaded lipid nanocarrier were found to be optimum for inhibiting atopic dermatitis. The piperine loaded lipid nanocarrier were able to have maximum deposition of drug in skin layers. The high drug permeation of the piperine loaded lipid nanocarrier based cream was confirmed.

(57) Abstract :

The invention discloses phospholipid vesicular nanocarrier for topical delivery of tea tree oil in management of atopic dermatitis and method of preparation. The phospholipid vesicular nanocarrier comprises of tea tree oil; phosphatidylcholine; ethanol; a cream base comprising an oil base and an aqueous base, wherein the oil base comprising of cetyl alcohol, stearic acid, tween 80 and span 20, and wherein the aqueous base comprising of propylene glycol, glycerine, methylparaben, propylparaben and distilled water. Evaluation of the nanocarrier showed that phospholipid vesicular nanocarrier have potential for inhibiting atopic dermatitis. The phospholipid vesicular nanocarrier based creams showed acidic pH similar to normal skin, good stability, acceptable spreadability, and low potential for skin irritation. There was removal of erythema, edema, excoriations, and dryness in atopic skin. The high drug permeation of the phospholipid vesicular nanocarrier based cream was confirmed as the cream demonstrated enhanced penetration of stratum corneum and high deposition of tea tree oil in the epidermis and dermis.

Hydrogels for localized drug delivery: A special emphasis on dermatologic applications

Shammy Jindal, Rajendra Awasthi , Kanya Goyal, Giriraj T. Kulkarni 

First published: 15 September 2022

<https://doi.org/10.1111/dth.15830>

Abstract

Skin disease treatment is a complex and time-consuming process due to the complex etiology, numerous side effects of conventional therapies, and difficulties in determining primary causes of the disease. Superficial wounds are often easy to treat. However, treatment of severe wounds caused by burn is challenging for clinicians. Optimum therapeutic benefits are based on the site-specific delivery of medicaments at the right time for a prolonged duration. Systemic toxicity and frequent dosing are the major challenges associated with the use of conventional therapeutics. Hydrogels are material of choice for drug delivery because of their high biocompatibility and ability to hold and release therapeutic agents. The number of hydrogels available for use in cosmetology and dermatology continues to grow during the past 1–2 decades. However, new hydrogel materials with high biocompatibility, antibacterial properties, and the ability to stimulate skin regeneration processes are in high demand. These are three-dimensional networks, which absorb a large amount of biological fluids and water. Hydrogels can be used as a biosensor, carrier systems for cells, drug delivery carriers especially for topical applications and in contact lenses. Hydrogels are highly porous carriers containing about 90% water. Stimuli-responsive hydrogels cause a change in network structure that is completely reversible in nature. The present review describes the applications of hydrogels in pharmaceutical formulations with a special emphasis on the treatment of dermatologic conditions such as acne, psoriasis, and mycosis.

Abstract:

Pressure overload (aortic stenosis) induced myocardial hypertrophy is allied with a poor prognosis in humans. It leads to the development of cardiac arrhythmias, diastolic dysfunction, and ultimately congestive heart failure. Heart failure is a global pandemic disease, affecting an estimated 26 million people worldwide and more than 4 million in India. This poses a huge burden to both individuals and society. However, there is limited knowledge regarding the underlying molecular mechanisms. Therefore, we hypothesized that the various cellular signaling pathway is playing a key role in myocardial hypertrophy. In this review, we were highlighting that drug-like H₂S can target these cellular signaling pathways and hold promise as a potential lead for therapeutic intervention. Furthermore, it includes the concerns associated with H₂S based therapy. In literature, clinical trials suggest that H₂S based therapy is beneficial in cardiac hypertrophy and other diseases. The realization of the biological importance of H₂S in numerous cells, tissues, and organs is now shedding light on the pathogenesis of various human diseases and paving the way for innovative therapeutic interventions.

Keywords: Aortic stenosis; cellular Signaling; H₂S; myocardial hypertrophy; Heart failure.

ABSTRACT

Objective: The present article attempts to evaluate the physicochemical and preliminary phytochemical along with anti-termite activity using chloroform extract, methanolic extract, and ethanolic extract of dry *Lantana camara* leaves as well as flowers against the termites.

Methods: Different concentrations of the filtrate ranging from 1-5% were tested against termites and observed for 6 hours of exposure. The insecticidal effect was analyzed by observing and recording the death rate of termites.

Results: 1% methanolic, ethanolic, and chloroform extracts of leaves caused around 30%, 40% and 80% mortality at 2hour exposure, and at 2%-5% caused 50-100% mortality in termites at various exposure periods. The chloroform leaf extract was most effective as an anti-termite agent, as 1% chloroform leaf extract resulted in 80% mortality at 2hour exposure and 2%-5% extract concentrations caused a mortality rate of 95-100% at various exposure periods, i.e., dose-dependent mortality was observed.

Conclusion: From these results, it was concluded that chloroform extract of *Lantana camara* could substantially protect from termite attack.

Keywords: *Lantana camara*, Physicochemical Properties, Pharmacognostic Parameters, Anti-termite Activity.

Abstract

In the midst of the global epidemics of both unwanted pregnancies and sexually transmitted infections (STIs), possibilities that provide protection with minimal side effects are ideal. Therefore demand is increasing for vaginal contraceptives which protect from infection too. The spermicidal activity was determined using a modified method of Sander and Craaser. The extract was mixed with sperm suspension containing spera. The mixture was inoculated on the stage of Polarized microscope for 20 s at 100x (oil immersion) and observed for motile sperm. The spermicidal activity of novel aqueous neem extract on rat spermatozoa was same as in case of human spermatozoa. The MEC of NANE was found to be 2.5 mg/ml and 5 mg/ml in rat and human spermatozoa respectively. The present study describes the simple, use step, novel method of extraction and evaluation of *in-vitro* spermicidal activity in rat spermatozoa and *in-vivo* contraceptive efficacy in female wistar rat. It may be concluded that prolonged and controllable drug delivery of neem constituents from mucoadhesive gel with various loading doses, is achievable and delivered dose is controlled manner for fertility control.

Keywords: Contraceptive; Neem leaf extract; Novel method of extraction; *In-vitro* spermicidal activity in human spermatozoa

Introduction

The population explosion is a global problem that poses significant threat to the quality of life, more particularly in the underdeveloped and developing countries. The key requirement to combat this grave situation is the availability of suitable contraceptive devices that people would adopt to control birth rate [1]. A number of contraceptive methods are available; however, acceptability of these methods has quite often been limited by their associated unwanted side effects, failure rate or irreversibility. This prevailing situation demands the development of newer contraceptive options that should be simple, safe, reversible, cost-effective and, overall, that would be acceptable to the majority of the world population irrespective of culture, religion and race. Of the contraceptive strategies available, the barrier methods are the most commonly used option that has gained recent surge of interest because of its temporal use with possible

availability and easy usage [2]. Although male or female condoms used correctly and consistently is the only available method shown to be effective in preventing both unwanted pregnancies and STI/HIV infections, women often have little power to negotiate the use of condoms with their partners and are unable to protect themselves from nonconsensual coercive sex. The currently available spermicidal contraceptive formulations are effective, but their repeated use is

ORIENTATION PROGRAM FOR STUDENTS

ON

"EXAMINATION EVALUATION PATTERN"

Program Date: 29/09/2022

Time: 12:30 PM to 01:30 PM

Resource Person: Prof. (Dr.) M.S Ashawat, Director cum Principal, Laureate Institute of Pharmacy

Mr. Nishant Goutam, Examination Incharge, Laureate Institute of Pharmacy

Venue: Seminar Hall

Under the aegis of IQAC, an orientation program Titled 'Examination Evaluation Pattern' for was conducted on 29/09/2022 to guide them about the evaluation parameters for sessional and final exams. The resource person was Prof (Dr) M.S. Ashawat, Director cum Principal, Laureate institute of Pharmacy. The objective of the program was to create initial awareness and motivation for the students to effectively prepare themselves for course. Prof. (Dr) C.P.S Verma, HOD, Department of Pharmacognosy, welcomed the resource person and highlighted the importance of orientation of students about examination pattern and evaluation criteria. Prof. (Dr.) M.S Ashawat addressed the students and informed the students briefly about the Evaluation criteria for Internal and University Examination. Mr Nishant Gautam, Examination In-Charge explained in detail about internal marks bifurcation and assessment in final exams. All HODs

ONE DAY FACULTY DEVELOPMENT WORKSHOP ON "COURSE OUTCOMES AND PROGRAME OUTCOME"

Program Date: 13/08/2022

Time: 12:00 PM to 1:00 PM

Resource Person Prof. (Dr.) Ashish Baldi Sir Dean Research and Development MRSPTU,
Bhatinda, Punjab.

Venue: Lecture Hall and Computer Lab

Minutes of meeting under the aegis of IQAC

One day training workshop was conducted for faculty development and education. The resource person for the programme was Prof. (Dr.) Ashish Baldi Sir Dean Research and Development MRSPTU, Bhatinda, Punjab Topic of the workshop was Course Outcome and Programme Outcome. Workshop started by Prof. (Dr) M.S. Ashawat Sir Director cum Principal of LIPH. Sir gave brief introduction of Prof. (Dr.) Ashish Baldi Sir and explained the importance of workshop for personal and professional development. Then Prof. (Dr.) Ashish Baldi Sir explained in detail Course Outcome and Programme Outcome and also explain how to set effective question papers considering students with different calibers in the class and identify course Outcomes and Programme Outcomes according to the questions. Sir also demonstrated how to analyses the attempt of the questions by students and attainment percentage of the students with examples. All present faculty members attended this workshop.

**Report on One Day Workshop on
Hands on Training on Double Beam UV Visible Spectrophotometer
UV-1900i
(Handling, Troubleshooting & Maintenance)**

Name of Resource Person: Ravinder Kumar

Designation: Sr. Service executive

Name of Company: Toshvin, Authorized dealer of Shimadzu UV & FT-IR in India

Date of Program: 22 Sep 2022

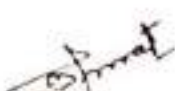

Venue: Conference Hall, Laureate Institute of Pharmacy-HP

Laureate Sophisticated Instrumental facilities (LSIF), Department of PA &QA, LIPH

Time: 12:30-1:30PM

The function started with lamp lighting ceremony and Saraswathi Vandana. **Prof.(Dr.) Mahendra Singh Ashawat**, Professor cum Director, Laureate Institute of Pharmacy and Convener of Institution's Innovation Council welcomed the resource person, Mr. Raviander, Sr. service executive, Toshvin India, Chandigarh Unit by presenting the bouquet.

In his welcome speech, **Prof. Mahendra Singh Ashawat** welcomed the participants at Laureate Institute of Pharmacy, Kathog, HP. He highlighted the importance of Sophisticated Analytical instruments in assuring the quality and safety and efficacy of drug molecule and new drug development. He further added institute possesses most of the analytical instruments like RP-HPLC, Brookfield Viscometer, FT-IR and Shimadzu double beam UV 1900i. He mentioned that institute encourages the budding research scholars and students to get acquainted with the knowledge of instrument handlings and organize such workshop frequently.

Prof. (Dr.) Amar Deep Ankalgi, Professor and Head, Pharmaceutical Analysis and Quality Assurance Cum Pharmaceutical Chemistry, Laureate Institute of Pharmacy and NISP coordinator informed that participants registered for the workshop and wished the workshop will be knowledge bearing session for the participants.

Mr. Ravinder, resource person, covered the brief introduction to analytical instruments and basic principle, working and handling of the Double beam UV Visible Spectrophotometer in lecture session at conference hall.

During the practical demo at Sophisticated Instrumental Facilities(SIF) at department of Pharmaceutical Analysis and Quality Assurance. He explained the overall hardware and software component of Shimadzu UV1900i. He demonstrated the use of the instrument both by using instrument display unit and PC control system. He showed the techniques of validation of the instrument. He runned the M. Pharmacy scholar sample in the instrument and showed how to plot overlay spectra and calibration plot.

There was interactive session in which Mr. Ravinder addressed the queries of participants regarding UV instruments.

Mr. Shiv Kushawaha, Associate Professor and Head, Pharmacology, IIC member and Mr. Dev Raj, Assistant Professor, Pharmaceutics, Media head, IIC jointly distributed the certificate to the participants.

Dr. Mahendra Singh Ashawat, Director Cum Principal, IIC convener, presented the memento and certificate to eminent resource person, Mr. Ravinder, Shimadzu, India

Dr. Pravin Kumar, HOD, Pharmaceutics and Start UP Activity Coordinator, IIC delivered vote of thanks to the resource Mr. Ravinder for providing his valuable time to conduct the analytical workshops and also thanked all IIC representatives, faculty, staffs and participants for enthusiastically attending the event

Power Point Presentation:

INSTITUTION'S
INNOVATION
COUNCIL

Workshop on

Hands on Training on Double Beam UV Visible Spectrophotometer

UV-1900i

(Handling Troubleshooting & Maintenance)

On 22 Sep 2022

Time: 12:30-1:30PM

Presented by: Ravinder Kumar

Sr. Service executive, Jashvin

Authorized Dealer of Shimadzu, India

Organized by:

Institution's Innovation Council, Laureate Institute of Pharmacy -HP

(IC/202216219, Esth. 28 June 22)

Ultraviolet light is arbitrarily broken down into three bands, according to its anecdotal effects. Anecdotal based on reports of things someone saw rather than on proven facts.

UV-A is the least harmful and most commonly found type of UV light because it has the least energy. UV-A light is often called black light.

UV-B is typically the most destructive form of UV light, because it has enough energy to damage biological tissues, yet not quite enough to be completely absorbed by the atmosphere. UV-B is known to cause skin cancer. Since most of the extraterrestrial UV-B light is blocked by the atmosphere, a small change in the ozone layer could dramatically increase the amount of UV-B that reaches the earth's surface.

UV-C is the most energetic and most destructive form of ultraviolet light. It is almost completely absorbed by air within a few hundred meters. When UV-C is produced on earth, it is usually by artificial means.

UV-C is used in germicidal lamps to kill bacteria and viruses. UV-C is also used in some industrial processes, such as curing inks and coatings. UV-C is also used in some medical applications, such as treating psoriasis.

Germicidal UV-C lamps are often used to purify air and water, because of their ability to kill bacteria.

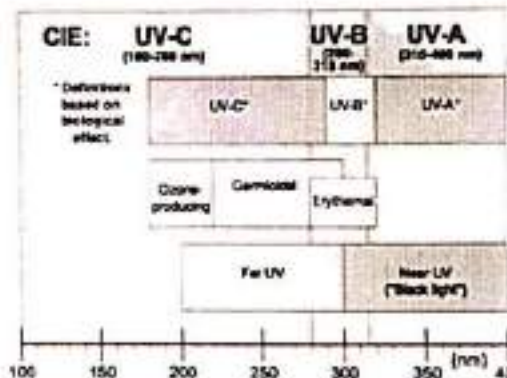

Fig. 1.2 Common ultraviolet band designations.
