There was a good experience in hostel and college. The bonding with teachers, they were very supportive and yes it's truly unforgettable. The vibrant campus life, coupled with supportive faculty and diverse student community, has made my time here incredibly enriching. From late-night study sessions and group projects to cultural events and sports competitions, there's always something exciting happening. The hostel has become a second home, filled with memories of laughter, debates, and bonding moments with friends. College has not only been about academics, it's been a journey of self-discovery, growth and lifelong friendships. I am grateful for the opportunities, experience, and lessons learned during my time here.

Suggestions — I will suggest that preparation of GRE examination should be started from 2nd year.

My experience in hostel life was truly transformative. Living with fellow residents from diverse backgrounds broadened my horizons and taught me valuable life skills. I learned to be independent, manage my time effectively, and balance academics with social life.

The camaraderie and shared experience created lifelong friendships and unforgettable memories. While adjusting to shared spaces and rules presented challenges to shared spaces, the support system and sense of community made it worthwhile. Overall, hostel life was a rewarding experience that fostered personal growth, resilience and lasting connections.

Suggestion — Hostel offer group tours or activities, which are great for meeting new people.
