IDENTIFICATION AND SUPPORT FOR SLOW, AVERAGE AND FAST LEARNERS'

GUIDELINES

The identification of slow, average, and fast learners is essential to ensure the holistic development of students and to help each learner achieve academic growth according to their potential. In Laureate Institute of Pharmacy, faculties evaluate students in each course of a programme through both subjective and objective assessments, identify the slow, average and fast learners, and take supportive measures for their improvement.

METHODS OF STUDENT ASSESSMENT

1. Subjective assessment

Teachers continuously assess student by:

- Initial assessment at the start of course by evaluating the pre-requisite knowledge for the course.
- Classroom interaction.
- Response during quizzes
- Ability to answer questions during theory and practical classes.
- Evaluation of higher order skill creativity, critical thinking & ability to explore ideas during theory/practical classes.

2. Objective assessment

Based on academic performance in:

- * Class tests (MCQs, True & False and Matching items)
- * Internal sessional examinations

IDENTIFICATION CRITERIA

A. Slow learners

Students may be categorized as slow learners based on:

- Low classroom participation.
